PROFESSIONAL SUMMARY

Software Engineering graduate with hands-on project experience in backend development, REST APIs, web applications, and Android apps. Built a five-person team project with role-based access control and secure login, and integrated a third-party payment API into a service-oriented system. Skilled in Java, C#, .NET, Node.js, SQL Server, and MySQL.

TECHNICAL SKILLS

Languages: Java, C#, C++, JavaScript, PHP, SQL
Backend and APIs: .NET, ASP.NET Core, Node.js, Express.js, REST APIs, Entity Framework Core, JWT, Bcrypt, Role-Based Access Control (RBAC)
Databases: MySQL, SQL Server, Firebase Firestore, Database Design
Web and Mobile: HTML, CSS, Android Studio, Firebase
Tools: Git, GitHub, Visual Studio, VS Code, NetBeans, XAMPP, RStudio, Cisco Packet Tracer

PROJECTS

OCODR: One Citizen, One Digital Record *Sep 2026*
Node.js, Express, MySQL, JWT | Team project of five, CSE5015 Computing Project

- Worked in a five-member team to deliver a national digital identity platform with ten role-based access levels.
- Built REST API endpoints in Express on a MySQL schema, with JWT sessions, bcrypt password hashing, and an audit log of every record access.
- Added QR-code ID verification and document upload, and wrote API test scripts covering logins, access limits, and the audit log.

NWSDB Service-Oriented System *Sep 2026*
C#, .NET, SQL Server, Entity Framework Core, REST APIs

- Implemented the API integration between the NWSDB water billing system and a third-party payment service.
- Developed a service-oriented solution for online water bill and usage management, using SQL Server and Entity Framework Core for data access.
- Documented and tested the REST endpoints with Scalar.

PrintXpress: Digital Printing Android App *Jul 2026*
Java, Android Studio, Firebase

- Built an Android app that lets customers browse printing products, customize their orders, and track order progress.

GlobeTrek: Tourism Travel Management Website *Jun 2026*
HTML, CSS, PHP, XAMPP

- Developed a tourism travel management website for browsing and managing travel listings, running locally on XAMPP.

GreenBasketGUI: Shop Stock Management System *Dec 2025*
Java, NetBeans, Object-Oriented Programming

- Developed a Java desktop application for managing shop products and stock levels.

EDUCATION

Higher Diploma in Computer Science and Software Engineering *Completed*
ICBT Kandy Campus, Sri Lanka

GCE Advanced Level and Ordinary Level
B/Al Murshid Maha Vidyalaya

LANGUAGES

English, Tamil, Sinhala
